

THE EMERSON

You don't need more stories to make unforgettable memories. The expansive ranch design of the Emerson puts a great deal of home on one floor, including an owner's site that's nothing short of a private retreat, with his and her vanities and a walk-in closet. Two or three additional spacious bedrooms on the first floor, making it easy to keep the family connected. Emerson's features include arched hallways, kitchen with a snack ledge, large gathering room, and lots of natural light.

The Emerson is for you!

Flip It, Color It, It's YOUR High Performance Home!

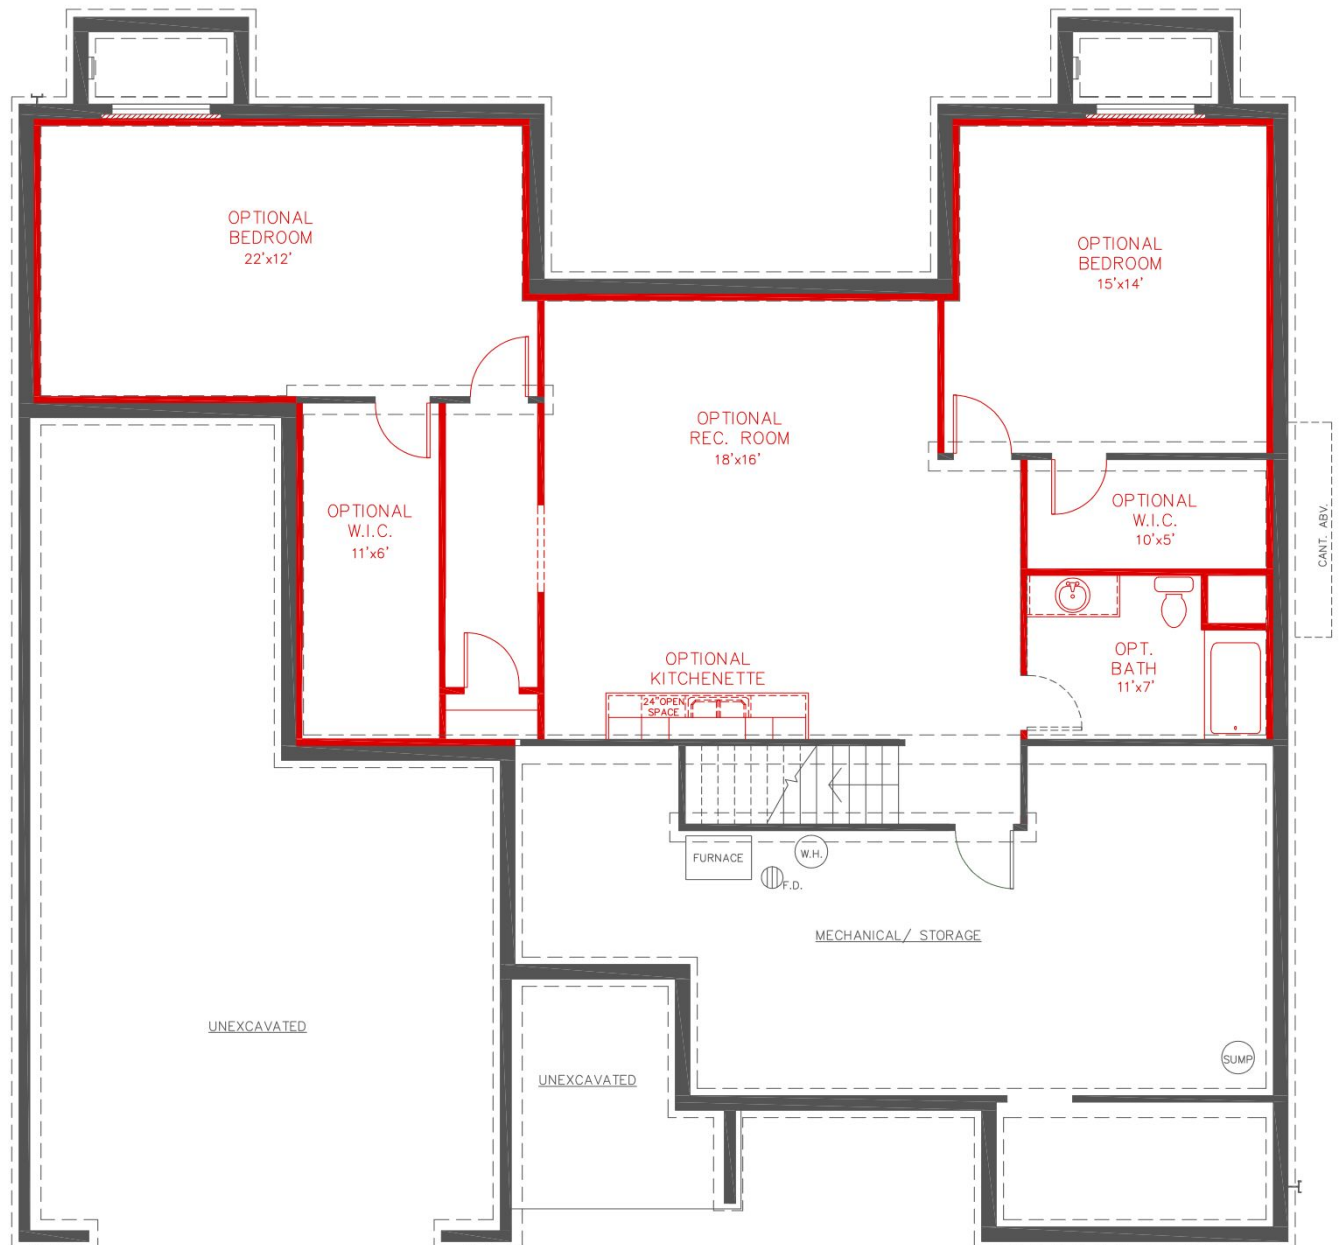

All of Bosgraaf's home plans can be "flipped" with the garage on either side. Colors, inside and out, are up to you as well. You can even decide to invest in optional features such as a third garage stall, or other enhancements. Even though we offer "pre-designed" home choices, we believe the only place for cookie cutters is in your kitchen drawer!
